## How to perform the bath

Sit on the floor (or on a cushion) and arrange your 5 bills and 5 coins in a circle around you.

Inside the circle, light the incense and the green candle.

Take a moment to meditate and visualize how all your money problems disappear. Picture yourself having the exact amount of money you need. This will be your goal. Focus.

When you are completely immersed in your goal, sprinkle a little cinnamon on top of the money that surrounds you. Just a pinch on each bill and coin. As you are doing this, chant the following spell:

***"I have all the money I could need.***

***I am truly prosperous indeed!"***

Say it 5 times in total.

Pick up all the money moving clockwise around the circle.

Put this money in your wallet or purse and let the incense and candle burn completely. In the following days, spend this money so that the energy you've build will start to flow along with the money.
