How to cast the spell

Before starting, draw a money symbol on the paper. Decorate it however you like.

On the same paper, write down the amount of money you need. Make it a realistic number. Imagine the money in your hands or in your bank account.

Place the candle on a dish or candle holder and the paper underneath. Light the candle.

Take a deep breath, and for the next 15 minutes, visualize the money coming to you. If you don't know how it will come to you, relax, clear your head and don't think about it. It will come to you.

Meditate on this as the candle burns. The wax should drip down and cover part of the paper. If your candle isn't dripping, angle the candle slightly, keeping your hand out of the path of the wet wax.

Once the paper is covered by a bit of wax, snuff out the candle with a spoon or a candle snuffer.

Repeat this ritual for seven days, lighting the same candle at the same time every day. On the last day, use the candle flame to burn the paper and let the candle extinguish itself.
