How to do the ritual

Create a circle on your altar or table using the sea salt. You can also do this if you will be working on the ground, using the salt to make a large circle of protection.

Take the green candle and carve your name on it using your boline or knife, starting from the wick and work your way to the base of the candle.

Place the dish inside the circle of salt.

Light the candle and use a few drops of molten wax to stick the candle to the center of the dish.

Add a handful of rice to the dish. Add the three bay leaves on top of the rice. As the candle burns, chant:

" Oh Goddess Mother, Queen of Magic and Wisdom,
Your doors are open; they do not close during the day or night.
Your hands extended in my favor will clear the way,
preparing me to work a job according to Your Will.
By the power of Three, so mote it be. "

Let the candle burn as you meditate and give Thanks because the wheels are already turning in your favor. Snuff the candle out and put your tools away.

Put the rice and the bay leaves in your cloth sachet and keep it in a secret and safe place.

Light the same candle again after one week and repeat the chant while holding your sachet.

That sachet will act as a mojo bag full of positive energy. Like any amulet, you can either keep it in a safe place or carry it around with you. Every time you see or touch it, feel how the energies of the Universe are working to get you the perfect job quickly.
