

# Bad Luck Go Away

Remove all bad luck from you by drawing positive energies that will manifest opportunities for growth and success.

- 1 green candle
- Cinnamon powder
- Salt

1. Place the green candle on your altar.
2. Spread some salt creating a protective circle around it. Say:

*"Bad luck, I command you to leave me right now"*

3. Light the green candle. Visualize all the bad luck you've been having. Say:

*"All adversity now dissolves"*

4. Meditate, focus and visualize all the problems in your life going away.

5. After 5 minutes, sprinkle the cinnamon powder on top of the salt as you say:

*"Only good luck and positive energy flows to me now"*

6. Visualize that boost of good luck coming to you as a bright blue light. Cancel all negative thoughts and memories and replace them with images of new opportunities.
