

Elemental Consecration

Invite the elements in physical and spiritual form to bless, consecrate, and purify any objects, tools or ingredients.

- 1 white candle
- Incense of your choice
- Glass of water
- Dish or bowl with salt

1. Find the four directions in your working area.
2. Light the incense and place it facing East on your altar or table.
3. Light and place the white candle facing South.
4. Place the glass of water facing towards West.
5. Put the dish with salt facing North.
6. Add a pinch of the salt in the water.
7. As you sprinkle the salt water on the object that is going to be blessed say:
"I bless and purify this object with Water and Earth"
8. Take the object and pass it through the incense smoke and carefully through the candle flame. Say:
"I bless and purify this object with Fire and Air"
9. Let the object rest in the center of the altar until the incense and the candle go out. Then put it in a safe place or keep it with you.

Never let candles burn unattended.
Working with fire requires adult supervision.
