

# Strawberry Moon

It's the month of strawberries! The days are long and the upcoming Midsummer celebration of Litha fills this time with heat and passion.

Here's an easy love spell for the Strawberry Moon!

- Fresh strawberries
- 1 pink candle
- 1 dish
- Pen and paper

1. Take a bath and relax. You can use sea salt and light a white candle in the bathroom.
2. Place the dish on your altar and light a pink candle on it. You can also use a red candle for a more intense, passionate effect.
3. Meditate as you watch the flame. Take a few deep breaths and focus on your intention.
4. When you're ready, chant a prayer such as this:  
*"Blessed Goddess up above, You who stand watching,  
Ad you who hear my voice.  
Shield my heart's desires and cover me with love."*
5. Write down your intention on the piece of paper. Carefully place it under or near the dish.
6. Place the three strawberries on the dish around the candle while you say: *"Blessed Be by the power of three."*
7. Let the candle burn as an offering to the Goddess of love. Optionally, you can prepare some strawberry tea and drink it as you meditate or have a few strawberries.
8. When you're done, blow out the candle and leave the offerings until tomorrow. In the morning, throw all remains and offerings away as you say *"Thank you"*.
