

# Home Smoke Blessing

. If you've been feeling that there are negative energies attached to you, it's probably time to get rid of them.

Let's renew the vibrations at home:

1 Palo Santo stick

- 1 Sage stick

- 1 white candle

- Cauldron or large ashtray

1. Get your altar ready by placing the white candle next to your cauldron.
2. Light a stick of Palo Santo using the candle and once it's burning, place it inside the cauldron.
3. Now light a sage bundle and do the same.
4. As the smoke starts to rise, light the white candle and chant this prayer:  
*"Goddess of the Earth and Celestial Dome,  
Pure is my heart, Clear is my home."*
5. Sing it or whisper it, but focus on inviting benevolent energies that will offer protection to your home.
6. Keep chanting it as many times as you like.  
If you need to, relight the incense sticks and let the smoke fill the room.
7. Meditate and when you're ready, blow out the candle.  
Never let candles burn unattended.

The new positive energies will clear away all envy, bad moods, and ill intentions.
