

Full Harvest Moon

On this Harvest Full Moon, date: _____

My intention is: _____

“Harvest Moon,
Bring light to my path”

How do I see myself?

How do others see me?

I wish I could see... because...

Where do I see myself in five years?

A Harvest Full Moon is meant to illuminate your path, even as the days shorten towards Winter.

Take advantage of it by looking deeply into yourself, as reflected by your trials and triumphs over the year so far.

Traditionally, the Harvest Moon was a time when new truths were believed to be revealed. Be sure to not only look deep inside during this time, but to really listen.
