Black candles absorb hostility, unfriendliness, curses, negative spells and other dark energies. They can banish and return whatever evil has been sent to its original sender.

How to Use Black Candles

- ★ Light a black candle as you visualize warding off evil intentions, to call for justice, or to seal a witch bottle to cast someone away without harming the person.
- ★ Burn a black candle along with a white candle at home to invite balance and harmony. ☯
- ★ Place a black candle next to a black crystal such as tourmaline to completely banish toxicity from the environment. Also while blessing an amulet to give it protective power.
