Pink Moon Spell

Increase love and manifestations with the lunar energy of April's Full Moon.

- 1 pink candle
- Candle holder or dish
- Rose quartz or Moonstone
- Pink flowers
- Pen and paper

1. Optionally, you can dress in pink (or wear a pink garment) to help open your most receptive side and channel the energy of the Pink Moon.

2. Decorate your room or your altar with pink flowers to set a positive and sensitive mindset for a successful ritual as you focus on your intention.

3. Look at the Full Moon or visualize it as you allow a feeling of hope to fill your spirit. Take a piece of paper and write your intention on it. Feel the blooming of your dreams starting to happen.

4. Place the paper under the candle holder or dish, and set the pink candle on top. Light the candle.

5. Hold your quartz or moonstone in your hands, and as you see the moon in the sky or in your mind, chant the spell:

"Strengthen my love, This magical day,
This is my will And this is the way"

6. Charge your gemstone with lunar energy by placing it outside or on a window sill. As the candle burns, follow a guided meditation for love, or simply empty your mind as you watch the candle burn.
