

# Eclipse Divination

An eclipse is a great opportunity to make decisions or change patterns. Use the power of this cosmic event to find an answer to your question.

- White candle
- Yellow candle
- Pen and Paper
- Incense (optional)

1. Burning some incense, light a white candle and a yellow candle to invite lunar and solar energy.
2. State your question out loud. It can be a Yes/No question, or a question with multiple choices.
3. Before the start of the eclipse, cut your paper into small pieces. Write "Yes" in one and "No" in the other (or write down all the different choices).
4. Fold each piece of paper three or four times.
5. As the eclipse unfolds and it starts to get darker, hold the pieces of paper in your closed hand and press your fist firmly. Say:  
*"Rays of wisdom, eternal pulse,  
Blessed Be your energies, together at once.  
Darkness of the Moon, Strength of the Sun,  
Guide my steps, and harm no one."*
6. As the light returns, slowly open your hand with your palm facing down. See which of the papers falls to the ground first. That will be your answer. If both fall at the same time or both are stuck in your hand, it means the answer is still up in the air. You may try another divination method.
