

Bay Leaf Wish Spell

Burn a dried bay leaf to quickly manifest a goal.
Best done in a New Moon or Waxing Moon.

You'll need:

- 1 bay leaf
- 1 marker or pen
- Lighter or matches
- Cauldron or fireproof container
- 1 candle
- Tongs

1. Choose the color of the candle based on your goal. Light it and set the mood (incense or music).
2. Write your wish on the bay leaf as you focus on the energies you want to attract.
3. Align your emotions with your intent. Visualize the feeling of receiving what you are asking for.
4. Using the tongs, safely hold the bay leaf near the candle flame until it burns almost entirely.
5. Mindfully drop the bay leaf inside the cauldron.
6. Let the candle burn as you meditate. If you need to leave the room, snuff out the candle and continue to burn it during the following days.
7. Throw away the ashes and spell remains in any way that is convenient to you as you give thanks for their help in your ritual.
