

ANCESTOR ALTAR

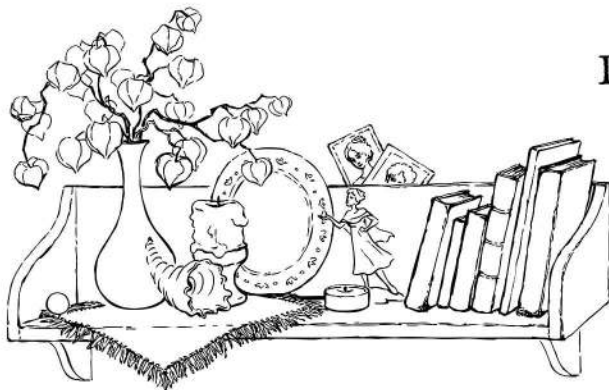

Many Witches, such as hedge witches and other Pagans, don't work with gods or deities, instead dedicating their spiritual work to the spirits of Nature and others such as the dead, including ancestor work.

1. Clean the space, both physically and energetically.
2. Place a white altar cloth.
3. Pour some coarse salt on it.
4. Optionally, invoke the elements and call all four corners of the earth.
5. Say a prayer to invite fresh energy to this space and to honor those who helped shape who you are today:

“I ask my ancestors for protection. I thank you for protecting me, my family and my home. Thank you for guiding me on my path. For allowing me to be of service in alignment with my True Will.”
