

# Snow Purification

Snow can be used to cleanse and purify your crystals and tools. It is associated with clarity and the possibility for a fresh start.

- Snow or rainwater
- Water-safe crystals
- Bowl or a cauldron

1. Before you begin, set an intention for the ritual. E.g. to purify your home, cleanse your tools, or bless the season.
2. Tonight you can light white candles or decorate your altar with snowflakes of cut or folded paper.
3. Hold your crystals in your hands and focus on the intention. They will be the carriers of your will.
4. Place the snow or rainwater in a bowl (or use your cauldron) and add the crystals.
5. Say this spell or modify it according to your intention:

*"I cleanse and purify my crystals,  
To bring new energy and light,  
Blessed be."*

6. Place the bowl in a place where it will receive the energy of the Full Moon. It could be outside or by a windowsill. Let them rest in the moonlight until tomorrow.
