

Witch's Cauldron

A witch's cauldron is a large metal pot traditionally used for cooking and brewing potions. It is often depicted as black, with three legs (a symbol of triplicity) and a handle, and adorned with symbolic engravings or designs.

Magickal Uses of Cauldrons

Brewing Potions: Used to mix magical ingredients for powerful potions.

Burning Incense: As a vessel for incense, it purifies, creates sacred space, or aids meditation.

Symbol of Fire: Represents the element of Water and the womb of creation.

Scrying: Used for divination by gazing into water-filled cauldrons.

Holding Offerings: Used to present offerings to deities or ancestors.

Making Spell Jars: For assembling and blessing ingredients in spell jars.

Candle Magic: Provides a safe space for candle magick practices.

Blessing spell

If you want to bless ingredients such as herbs and oils before brewing potions or creating spell jars, place the ingredients in your cauldron and say:

*"By elements embraced and power within,
To this cauldron, blessings we begin.
With every brew and magic's decree,
May it hold our intentions, blessed Be."*
