Water, Fish, Candles, River Stones

## Inviting In Danu

After cleansing, pour some water into a bowl at the beginning of your devotion. If you're practicing outside, pour it onto the ground. Then, you will call out to the Mother Goddess, for example, "**Lady Danu, I invite you into this space with me.**" Call her and invite her in however you are comfortable. Once you have done this, you must close your eyes and wait.

Wait until you sense her presence, see her in your mind, hear her, etc. There is no right way to experience a deity's presence. You'll know when you feel it; once you do, prove your gratitude towards her. If you've been called upon to make a unique offering to Goddess Danu, you should do so during this time. Do not ever promise something that you will not do. False promises will anger the gods.
