Money Bowl

Harness the magic of the money bowl to attract abundance, invite financial growth, and ground your intentions in lasting prosperity.

Bowl
Salt
Coins or bills
Green candle
Pen and paper

Herbs: cinnamon, basil, bay leaves, cloves, mint, allspice

Crystals: citrine, pyrite, jade, tiger's eye, aventurine

1. Optionally, cleanse your bowl and ingredients with incense smoke, saltwater or moon water.

2. Hold the empty bowl in your hands and set your intention, speaking aloud what you want to call in, such as prosperity or financial flow.

3. Fill the bowl by placing a layer of salt. Add a few coins or paper money, leaving space to add more.

4. Sprinkle in your chosen herbs and spices, then place your crystals on top as amplifiers. Tuck in a written intention, affirmation, or sigil among the contents to give the spell direction.

5. To activate the bowl, light a green candle beside it and visualize streams of golden light flowing into the bowl, filling it with the energy of wealth.

6. Finally, place your money bowl where it will best support your prosperity: on your altar, your work desk, or near your front door.
