Full Moons of 2026

In 2026, there will be 13 full moons, each associated with a traditional name and occurring in a specific zodiac sign.

As the moon cycles, it passes through the signs of the zodiac, with each Full Moon happening during a specific transit.

January 3

Wolf Moon
in Cancer

February 1

Snow Moon
in Leo

March 3

Worm Moon
in Virgo

April 2

Pink Moon
in Libra

May 1

Flower Moon
in Scorpio

May 31

Blue
Moon in
Sagittarius

June 29

Strawberry
Moon in
Capricorn

July 29

Buck Moon
in Aquarius

August 28

Sturgeon
Moon
in Pisces

September 26

Harvest Moon
in Aries

October 26

Hunter's Moon
in Taurus

November 24

Beaver Moon
in Gemini

December 24

Cold Moon
in Cancer

Because a lunar month is about 29.53 days and a year is about 365.24 days, the extra fraction adds up, giving 2026 a thirteenth full moon, known as a Blue Moon, occurring on May 31.

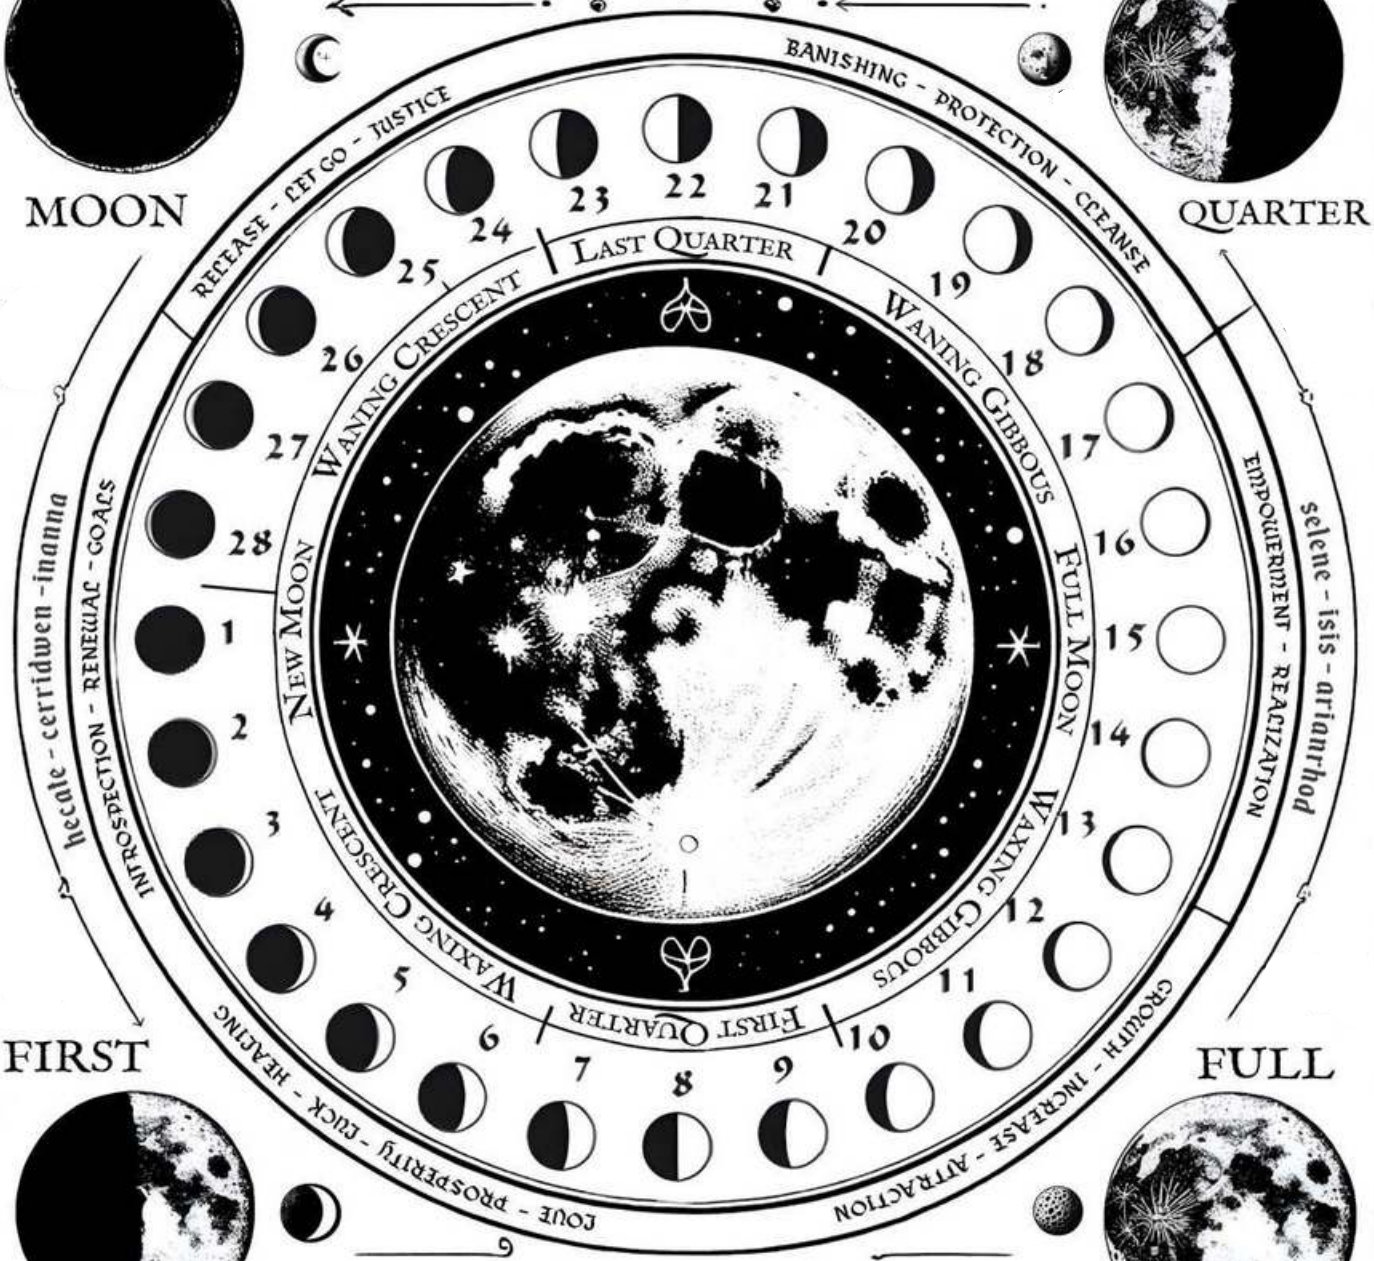
MOON MAGIC

Lunar Wisdom

The Moon has always held a position of profound significance. Revered as a symbol of mystery, transformation, and cyclical power, the moon's phases have long been synchronized with rituals, ceremonies, and spells. The Moon is seen as a manifestation of the divine feminine, often associated with ancient goddesses such as Diana, Selene, and Hecate. These lunar deities symbolize the moon's attributes: intuition, psychic insight, and the ebb and flow of emotional and spiritual energy. It's cyclical nature, with its waxing, full, and waning phases, mirrors the cycle of life, death, and rebirth. Each phase is celebrated and utilized differently in magickal practices.

NEW MOON

LAST QUARTER MOON



FIRST QUARTER MOON

FULL MOON

The moon's power is also central to the Wheel of the Year, influencing the sabbats, or seasonal lunar festivals. Moon rituals, or Esbats, are regular ceremonies that honor the moon's changing face and harness its energies for spiritual growth.
